Learning &
Networking Session

Screening: The Basics

*Criminal Records Checks
Vulnerable Sector Checks
Resources, Information & Sharing*

Wednesday February 7

~Join Us~

Of interest to those who work or volunteer in non-profit organizations and community groups.

Organizations have moral, legal and ethical responsibilities to the people they reach.

This includes members, clients, employees and volunteers.

Screening is especially important for organizations that work with vulnerable people. Vulnerable people may include children, people with disabilities and senior adults.

Join us for this Learning & Networking session. We will be hearing from our local R.C.M.P. on their processes and what we all need to know in regards to Criminal Records Checks and Vulnerable Sector Checks. We will have a question time and IVC will share resources including a comprehensive updated screening resource from Volunteer Alberta. We will wind up with networking and conversation with screening & risk management in mind.
